

Retain freshness & flavour for up to 5 times longer!

The **Ezivac** will revolutionise the way in which you buy & store food! By using this high-quality vacuum packing system you can greatly extend the life of your food whether it is kept in the pantry, fridge or freezer.

Oxygen in the air causes food to deteriorate, causing the loss of nutritional value, flavour & quality. In addition to this, air promotes the growth of micro-organisms & is responsible for freezer burn.

The **Ezivac** vacuum packing system extends the shelf life of food by removing over 70% of the air which in turn reduces oxidation & prevents microbes like bacteria & mould from ruining your food.

It's perfect for fresh foods & is also fantastic for increasing the life of the dehydrated delicacies you've created with your **Ezidri** dehydrator!

The best part is it's so easy! Thanks to the fully-automatic operation of the **Ezivac**, vacuum packing only takes a couple of minutes!

Three Simple Steps

1

Fill the bag with food.

2

Place the open end of the bag into the vacuum chamber.

3

Push start button and gently press down on lid.

Ezivac vacuum packs and seals automatically!

Ezivac offers you the ultimate in vacuum sealing systems, accessories & service.

- ✓ Automatic operation

Vacuum packing made easy!

Ezivac Accessories

The **Ezivac** system features a range of accessories which includes **bags & rolls** of varying sizes. These allow the packing of food in any size you wish, taking up less space in your pantry, fridge or freezer. **Canisters** are perfect for marinating your meat in minutes or vacuum packing meals, liquids or crushable foods. Another great accessory is the **bottle sealer** which allows you to enjoy your unfinished bottles of wine for a longer period of time. Bottles can be opened & resealed as many times as you like!
